## **FACTORY-POURED PRECAST CONCRETE DECK TRUCK SCALES**

Cardinal Scale's Harvester® series precast concrete scales offer an economical approach to truck weighing on farms. The Harvester® is a fully-electronic truck scale featuring factory-poured concrete decks for above-ground, low-profile weighing. Incorporating the latest in patent-pending concrete composition with high tensile strength and optimal deck weight, the Harvester's 70 x 10-ft model 5070-PSC features a 50-ton capacity and 25-ton concentrated load capacity.

- Stainless steel, USA-made load cells
- NTEP certified for commercial use
- Patent-pending concrete deck design
- 50-ton overall capacity and 25-ton CLC
- High-tensile strength concrete decks
- Single source supplier for all components
